About FAMCO

Construction, maintenance, building materials, property and logistics for clients and partners in Côte d'Ivoire.

Founded in Qatar in 2003, FAMCO has delivered general contracting, trading and transportation. We have built villas, commercial buildings, petrol stations and warehouses.

Our strength is turn-key service, shaped by broad experience and completed projects. Our goal is to be the provider of choice in contracting and building services.

Illustrative visuals. Final specifications and availability are confirmed on quotation.

Experience and journey

A career built across several markets and project types.

1990–1998 ● **Conakry, Guinea**

1998 ● **Côte d'Ivoire: FADCO project, Marcory**

A historical reference tied to family experience, carried out under the name Société Solidaire. It marks a long-standing presence in construction.

2000–2003 ● **Dubai: buildings and projects**

Professional experience in building and construction projects in the United Arab Emirates.

2003–2018 ● **Qatar: buildings and infrastructure**

Residential and commercial buildings, workers' housing, hangars and warehouses, from accommodation blocks to functional structures and storage space.

2019–2023 ● **Lebanon: diverse works and projects**

Municipal and development projects: roads, rest areas, public gardens with Olympic-size pools, football fields, private villas, buildings and shopping centers.
